

Wandfluh AG has defined a clear position on these topics in the mission statement.

<p>Sustainable entrepreneurship</p> 	<p>We focus our actions on the long-term development of the company. We therefore focus on sustainability in terms of economic, ecological and social aspects.</p> 
<p>Global reach &amp; regional establishment</p> 	<p>We accept our responsibility as a regional employer and trainer and pay particular attention to job retention. We promote cooperation in a spirit of partnership with local authorities and institutions.</p> 
<p>Innovation &amp; tradition</p> 	<p>Innovation is a fundamental factor in our long-term success. The positive innovation atmosphere encourages the development of new ideas and solutions and enables the continuous improvement of our products, services and processes.</p> 
<p>Quality &amp; competence</p> 	<p>Due to good process control, we ensure the most demanding customer requirements. We are expanding those competencies that enable greater customer benefits, and we are involved in the value chain as a reliable partner.</p> 
<p>Encouraging and challenging employees</p> 	<p>We support our employees in their personal and career development and focus on occupational safety, health and a good work-life balance.</p> 

These guidelines are anchored in all our processes and are lived by the management and employees of the Wandfluh Group.
